Monitoring Community-Based Voluntary Counselling and
Testing (CBVCT)

GUIDELINES FOR DISAGGREGATED DATA SUBMISSION

CONTENT

Introduction.....	2
Acknowledgements	3
Data specifications.....	5
Table 1: Data file specifications for CBVCT M&E within COBATEST network.....	6

INTRODUCTION

This document was prepared for members of the COBATEST network that use their own data entry system (and not the COBATEST online tool), as guidance on how to submit the data for monitoring and evaluation (M&E) indicators. The guidelines provide the list of data items required for estimating CBVCT M&E indicators and the data file specifications (variable names for data items, values for variables and variable format specification). The M&E indicator data should be extracted from the CBVCT service 's own data management system and prepared according to the data file specification.

CBVCT M&E data files should be submitted to the COBATEST Network annually, by the following deadlines:

Data for the period:	Should be submitted by:
1st January 2017 - 31st December 2017	31st March 2018
1st January 2018 - 31st December 2018	31st March 2019
1st January 2019 - 31st December 2019	31st March 2020
1st January 2020 - 31st December 2020	31st March 2021
1st January 2021 - 31st December 2021	31st March 2022
1st January 2021 - 31st December 2022	31st March 2023
1st January 2022 - 31st December 2023	31st March 2024
1st January 2023 - 31st December 2024	31st March 2025

ACKNOWLEDGEMENTS

The document is based on the “Core indicators to monitor HIV diagnosis at community based voluntary counselling and testing (CBVCT) services” which was developed within the project “HIV community-based testing practices in Europe” (HIV-COBATEST) with co-funding from the Executive Agency for Health and Consumers (EAHC) under the EU Public Health Programme (Grant Agreement N° 2009 12 11). An early draft was developed by Irena Klavs (National Institute of Public Health-NIPH, Slovenia) in collaboration with Jordi Casabona (Centre d'Estudis Epidemiològics sobre les Infeccions de Transmissió Sexual i Sida de Catalunya – CEEISCAT, Spain), Cristina Agustí Benito (CEEISCAT), Laura Fernández López (CEEISCAT), Eduardo Ditzel (Projecte dels NOMS-HISPANOSIDA, Spain), Miha Lobnik (LEGEBITRA, Slovenia), and Per Slaaen Kaye (STOP AIDS, AIDS-Foundation, Denmark).

Consensus on the list of core and optional CBVCT indicators was reached on the draft document at the Workshop on the Core Group of Indicators to Monitor HIV Diagnosis in CBVCT Services in th Barcelona on 24 of May 2012. Special thanks to Tobias Alfven (Joint United Nations Programme on HIV/AIDS - UNAIDS, Switzerland) for his contribution to the workshop and all his suggestions on how to improve the document.

In addition to all individuals mentioned above, the following individuals participated at the workshop: Elena Adán (CAS Lluís Companys – Creu Roja,Spain), Maite Arrillaga (CEEISCAT), Alison Brown (Health Protection Agency-HPA, UK), Michele Breveglieri (ULSS 20, Italy), Laia Ferrer (CEEISCAT), Ricardo Fuertes (CheckpointLX, Portugal), Frank Funz (AIDS-Hilfe, Germany), Martina Furegato (ULSS 20, Italy), Jakob Haff (AIDS-Foundation, Denmark), Michael Meulbroek (Projecte dels NOMS-HISPANOSIDA, Spain), Adriana Morales Sida,(Stop Spain), Galina Musat (ARAS, Romania), Félix Pérez (Projecte dels NOMS-HISPANOSIDA, Spain), Ivo Procházka (Institute of Sexology, Czeck Republic), Ferran Pujol (Projecte dels NOMS-HISPANOSIDA, Spain), Daniela Rojas Castro (Association AIDES, France), Giorgio Sandrini Italy),(Arcigay,Sílvia Silva (Àmbit Prevenció-Àmbit Dona, Spain), Igor Sobolev (Estonian Network of LivingPeoplewith HIV, Estonia),

Július Szabó (Ceska společnost AIDS pomoc, Czech Republic), Inga Upmace (The Baltic HIV association, Latvia), and Iwona Wawer (National AIDS Centre of Poland).

After the Workshop on the Core Group of Indicators to Monitor HIV Diagnosis in CBVCT Services, the document was sent for final comments to all members of the HIV-COBATEST Steering Committee and the members of the Advisory Board of the HIV-COBATEST Project, who were: Cinthia Lemos, Menel- HIV-COBATEST Project Officer (Executive Agency for Health and Consumers – EAHC, Luxemburg), Marita Van der Laar (European Centre for Disease Prevention and Control – ECDC, Sweden), Luisa Frescura (UNAIDS), Martin C. Donoghoe (World Health Organisation – WHO, Europe, Denmark), Brenda Spencer (Laussane University Institute of Social and Preventive Medicine, Switzerland), Ricardo Fernandes (European AIDS Treatment Group, Belgium), Jens D. Lundgren (National University Hospital & University of Copenhagen HIV programme and HIV in Europe, Denmark).

The preparation of the final document was coordinated by Irena Klavs and Cristina Agustí Benito through several rounds of review by e-mail and teleconferences and the contribution of Jordi Casabona, Laura Fernàndez López, Eduardo Ditzel, Miha Lobnik, and Per Slaaen Kaye.

DATA SPECIFICATIONS

The table below provides an overview of data items to be collected for each client seen at the CBVCT service to be able to estimate all CBVCT M&E indicators with the suggested variables names, values (codes) for individual variables, and variables format specifications (data file specifications). For detailed explanation of each CBVCT indicator, see the CBVCT core indicators [here](#).

Data necessary for estimating linkage to healthcare should try to be obtained from the local health care services to which people with reactive screening tests were referred, or from the national surveillance system.

The following contextual information about the CBVCT service should be provided with each data submission:

- Type of specimens collected from clients at the CBVCT service
- HIV test used at the CBVCT service as well as other tests used (e.g. for diagnosing selected other STI such as syphilis, gonorrhoea, chlamydial infection and hepatitis B and hepatitis C)
- Whether confirmatory testing results is available to the CBVCT service, if confirmatory testing is performed in another organization
- The total operational cost of CBVCT facility during the respective half year

Each year CBVCT M&E data file should be submitted to the COBATEST Network as an attachment to e-mail that contains all the contextual information to mgogishvili@igtp.cat and lflopez@iconcologia.net

In the next table, **data in orange squares are not mandatory.**

Table 1: Data file specifications for CBVCT M&E within COBATEST network

Data collected for M&E CBVCT		Variable name	Values	Format
Centre		Centre		String
Clients' unique identifier*		Id		String
Gender		Gender	1 man (cis); 2 woman (cis); 4 transgender man; 5 transgender woman; 6 non-binary; 7 other	Number
Age	Age in years	AgeInYears	2 digits, 999 missing	Number
	Date of birth	DateOfBirth	dd.mm.yyyy	Date
	Age group	AgeGroup	1 <25years old, 2 25+ years old	Number
Key population at higher risk	MSM	MSM	1 yes, 2 no, 3 does not know, 4 does not want to tell, 5 not asked	Number
	SW	SW	1 yes, 2 no, 3 does not know, 4 does not want to tell, 5 not asked	Number
	PWUD	DrugUse	1 yes, 2 no, 3 does not know, 4 does not want to tell, 5 not asked	Number
	PWID	PWID	1 yes, 2 no, 3 does not know, 4 does not want to tell, 5 not asked	Number
	Migrant (Foreign national)	Migrant	1 yes, 2 no, 3 does not know, 4 does not want to tell, 5 not asked	Number
	Year of arrival to this country	Yearofarrival	yyyy	Number
	If migrant If 'long-term stay' migrant	MigrantYes LTStay	1 Tourist; 2 Longer Term Stay 1 foreign student, 2 foreign worker, 3 asylum seeking migrant, 4 refugee, 5 undocumented migrant, 6 naturalized citizen, 7 resident, 8 other	Number Number
Municipality or home town		Municipality	Text	String
Date of "requesting the test" visit		DateofVisit	dd.mm.yyyy	Date
Who provides the testing		Provider	1 Health Professional; 2 Lay worker (no peer); 3 Peer; 4 Other	Number
Client's access to free health care services		AccessHealthCare	1 yes, 2 no, 3 does not know, 4 does not want to tell, 5 not asked	Number
Have you been homeless during past 12 months? (living on the street, in a shelter , in a car...)		Homeless	1 Yes, currently; 2 Yes, but not currently; 3 No; 4 Don't know; 5 Refuse to answer	Number

*any specific unique identifier used at an individual CBVCT service to link information obtained at different visits from the same client and information about the same client received from other services (e.g. HIV testing laboratory). E.g.: COBATEST Identifier
